

**Bigorre Aerospace Corporation (BAC) limited warranty for
manufactured parts and repairs**

1 BAC products (all lamps, dual oil indicators and Felsic capacitors excluded) are guaranteed under the following terms:

For a period of 12 months, whichever comes first, from delivery date, BAC guarantees that its products are free from defects in material and workmanship rendered unserviceable through normal use.

During the said period, BAC will, at its discretion, replace or repair all parts acknowledged as defective and which have been returned in a timely manner by the Customer to BAC; all cost of carriage and duties are paid by the Customer. The Customer must join to the defective part a Warranty Claim with a detailed description of the failure and a certified declaration of the number of hours of operation.

BAC warranty applies to all products stored, installed, protected, maintained and used in accordance with BAC specifications and instructions without any modification by the Customer.

If the failure is not confirmed by BAC, warranty will not apply and the Customer will be charged for service and all applicable charges.

All other conditions or warranties, whether express or implied, relating to the quality and operation of the product are excluded, as well as any liability for loss or damage caused directly or indirectly by the equipment or resulting from its use.

2 For a period of 12 months from the date of the Serviceable Release Tag (BAC Form #5B), BAC guarantees its workmanship performed on repairs for a precise failure. Parts necessary for the repair of a determined failure are covered by a 12-month warranty from the date of the Serviceable Release Tag (BAC Form #5B).

3 Warranty Policies of Manufacturers that BAC is authorized to perform repairs for or Manufacturers that BAC represents, may supersede BAC warranty policy.

BAC will always respect the warranty terms as determined by the Manufacturers it represents or whom it performs repairs for.
